CITY OF CALISTOGA
PLANNING AND BUILDING DEPARTMENT

ANTI-ENTRAPMENT COVER CERTIFICATION FORM

Revisions to the California Health & Safety Code Section 115920, known as the Swimming Pool Safety Act, came into effect January 1, 2007. 115922. subsection (a.1-7) states "whenever a building permit is issued for construction of a new swimming pool or spa, or any building permit is issued for remodeling of an existing pool or spa, at a private, single-family home, it shall be equipped with at least one of the drowning prevention safety features" as described. Section 115928. (a-d) the permit shall require that the suction outlet of the existing swimming pool, toddler pool or spa be upgraded so as to be equipped with an anti-entrapment cover meeting current standards of the American Society for Testing and Materials (ASTM) or the American Society of Mechanical Engineers (ASME).

In order to comply with state law, the City of Calistoga requires that all homeowners at the time of permit issuance be made aware of this new legislation, and if applicable, that they comply. For properties that have a swimming pool, toddler pool, or spa, the anti-entrapment device must first be installed and verified by a City Building Inspector prior to final inspection. For properties that do not have a pool, we request that the owner declare in writing that a pool has not been constructed on site. This document will be filed as a permanent record in the City address files.

Building Permit#: _____

Property address: _____
