ISSUE:

Consideration of a Resolution awarding a contract in the amount of \$17,335 to Wilson Construction for crosswalk Improvements and intersection realignment at Washington Street and North Oak Street and Authorizing the Public Works Director to Install the Traffic Improvements.

RECOMMENDATION:

Adopt the Resolution.

BACKGROUND/DISCUSSION:

The City of Calistoga received a Transportation Development Act, Article 3 (TDA-3) Grant from the Metropolitan Transportation Commission for bike and pedestrian improvements. One of the projects that were approved consists of crosswalk improvements and intersection re-alignment to a 3-way stop at the intersection of Washington Street and North Oak Street. These improvements will make it safer for pedestrians to cross the street to the Logvy Community Park and Pool.

The intersection realignment will also allow for a future crosswalk across North Oak Street, when a sidewalk is eventually placed on the West side of North Oak Street.

24 All current and planned improvements at this intersection are consistent with the
25 Logvy Park Master Plan, approved by City Council on October 6, 2009. Although
26 the 3-way stop intersection realignment and the crosswalk are part of the approved
27 Logvy Park Master Plan, specific authority from Council is requested here to install
28 the noted traffic improvements.
