The City of Calistoga C/O Erik V. Lundquist
Brian Arden Winery Development Proposal

Hello Erik,

I'm writing this letter in regards to a project in Calistoga. The property located at 331 Silverado Trail in the northeastern portion of the city. I have talked with (Archaeological Services, Inc.) Jay Flaherty about our concerns and discussed with him.

The parcel on the Westside of the proposed development parcel, that has a building on the southeast corner of that property has unearthed burials and artifacts on it. This was approximately 2 ½ to 3 years ago. Our Chairman was pretty upset about this when he found out and has talk with that property owner about what had happen and why weren't we informed.

This is a very sensitive area. So, as you can see we are very concerned about this area. Any ground disturbances and excavations to be done on the property at 331 Silverado Trail for future development should have some monitoring and a discovery clause put into effect.

Please feel free to contact us with any questions and concerns, thanks, take care and be good.
