- Re: Proposed developments:
- 1.) Known as Enchanted Resorts
 - 2.) Silver Rose development
 - 3.) Roundabouts

Dear Mr. MacNab and Planning Commissioners:

This is an urgent request that you **prohibit** the three issues that I have stated above from moving into reality. Please defeat these to protect Calistoga from invasion of these large projects. There is no place for these three developments in the entire sacred Calistoga area. I'm not limiting to specific zones, etc., I am addressing each of these issues.

I would also ask that you address the water issues as you make these choices. Would the proposed developers pay the same rate for water as I do? We can no longer let large development "outsiders" come in and be given special rates for water.....at a much lower rate than the consumers that have made Calistoga home for years.

Please take these requests seriously and protect us that make Calistoga home. Thank you.

Sincerely,

Cheryle Stanley
