**BACKGROUND/DISCUSSION:**

The pool season was dramatically extended this season, allowing us to gather data for these later months. This data collected during the pre- and post-seasons will be critical data as we continue to explore the viability of expanding the pool season indefinitely. Both these pre- and post- seasons were subsidized by outside sources and this is not a sustainable option long term. These unique opportunities allow us the opportunity to explore how committed the community is to utilize the pool during the non-peak swimming seasons. Attached is the raw attendance data collected from POS staff. Unfortunately, June 2012 has gone missing and is not available but staff suggested that July and June were similar months. If the program is blank, it is because the data was not collected for that day. If there is an "X" in the box, then that program was not offered on that day.

**ATTACHMENTS:**

- 1) April – October 2012 Daily Attendance (missing June)

## April 2012

	Date	AM Lap	AM WaterX	Mid Lap	Rec Total	PM WaterX	PM Lap	Special Event	What was the weather like?
