

City of Calistoga

Permit #U88-05(a)

Charles Davis and Barbara Jolly
1207 Foothill Blvd

To Whom it May Concern:

We are asking for an amendment to item 2 of our conditional use permit that our doors can remain open during our events. As to the conditions of our use permit we are to have all doors closed during performances. And in order to adhere to the permit as written we would have to install swinging doors, at the present time we have sliding doors. The reasons why we would like to remain with sliding doors are:

1. Due to the proximity as to where a swinging door would have to be located.
2. The expense of installing swinging doors.
3. The building is not physically suitable for swinging doors.

Entertainment performances do not exceed a decibel level of 60, measured from any property line. This test was performed by the City of Calistoga prior to issuance of permit with doors and windows completely open. With this minor change it would continue to enhance the success here at Buster's BBQ.

Thank you for your consideration.

Charles Davis
