Subject: For City Council Meeting 8/21/18

To Calistoga City Council,

As Calistoga city residents and voters we are opposed to the planned development of a 13 bedroom 4 Plex at Washington and 4th Street. This is a very high density building in a much lower density neighborhood. It will certainly adversely affect the small town flavor we all love about Calistoga, not to mention parking and fire safety issues.

Please do not allow this project to proceed.
