Irene,  
Please see Michael Dunsford's comments. Can you be sure to include as part of tonight's record? Thx

Subject: Agenda Item

Hi Dylan,  
Can you please share with the city Council tonight but I am not in favor of making any changes to the way in which city staff presents our agenda. I specifically want to emphasize also that it is completely appropriate and necessary for city staff to make recommendations to the council. It is staff who are the professionals. It is the city councils job to set policy. City staff makes recommendations based on those policies set by the city Council and If the council has a different opinion it can, and always has, overruled the recommendations by city staff.  
Thanks,  
Michael
