Honorable Mayor & Members of the Council
City of Calistoga

RE: Budget Meeting

Members of the community are in the process of forming a new team to help build out the dog park on the property that the City has allocated to us. The process had been hold because we are short approximately \$12,000.00 to install the fencing that we already own. Remaining funds would be used to irrigate and sod the park as well as other amenities that we wish to install.

We would like to request funding to help us complete the dog park. The funds that were recently turned back over to the City from the Friends of the Pioneer Park would be put to good use and provide a great start to what we are trying to accomplish. It would also accomplish the request of the FOPP group to utilize the funds for park improvements.

Thank you for your consideration.

Sincerely,

Scott Atkinson

City of Calistoga
City Manager
