

The City of Calistoga presents....

# EARTH DAY 2010

## Creating a greener Calistoga through sustainable education and low impact lifestyles.

The City of Calistoga is celebrating Earth Day! Join us for one or all these FREE opportunities to DECREASE your carbon footprint while you INCREASE your awareness of the sustainable practice options right here in your own community!

### **Green and Solar Fair—April 17th—11:00 am—3:00 pm**

Celebrate Earth Day in Pioneer Park and enjoy live music, local eats, and cruise through vendors who provide opportunities to decrease our carbon foot print everyday through products and services.

### **Solar Tour—April 17th**

Tour local solar projects and ask questions of property owners and installers to help you determine whether solar is the right decision for you. Schedule is available on [www.calistogarecreation.com](http://www.calistogarecreation.com)

### **Speaker Series—April 12th—April 29th**

Enjoy a variety of inspiration speakers between April 12th—April 29th. Free raffle at each event. Complete schedule and bio on each speaker is available on the back of this flyer.

**Visit: [www.calistogarecreation.com](http://www.calistogarecreation.com)**

The City of Calistoga presents....

# EARTH DAY 2010

**Creating a greener Calistoga through sustainable education and low impact lifestyles.**

## Speaker Series

Most workshops will be held at the Calistoga Community Center at 1307 Washington St. at 7 pm.  
Free raffle for local products and services at each workshop!

- **"Taking Steps Towards Your Own Shade of Green" April 12th - 7 pm** - It isn't easy to balance a family, the stresses of life AND maintain a *green* lifestyle at the same time. Usually the easy route isn't always the *green* route. Take it from this mom of 5! Kari will share with us her experience of creating her own shade of green and balancing a busy work and family life at the same time!  
**Kari Ruel** is the founder and publisher of Napa Valley Life Magazine, a bi-monthly glossy lifestyle magazine aimed at the people who live, work and play in the Napa Valley. In addition to the magazine, she hosts a live segment on Kellie in the Morning radio show, KVON 1440 and KVYN 99.3 every Tuesday entitled, "Sustainable Life". Kari and more of her work can be found at [www.napavalleylifemagazine.com](http://www.napavalleylifemagazine.com).
- **"Making Cents out of Residential Solar" April 13th - 7 pm** - This is a simple presentation that breaks down all the various rebates, discounts, and opportunities out there to add solar to any home.  
**Napa Valley Solar Partnership** is a non-profit community resource to help assist and educate homeowners about residential solar electricity. [www.napavalleysolarpartnership.org](http://www.napavalleysolarpartnership.org).
- **"Saving Energy One Door at a Time—Residential Weatherization" April 15th - 7pm** - Learn from the experts about how to save money and energy costs without investing the big bucks! Learn quick and easy techniques to make a large impact on your energy bill.  
**P G and E** will be here to help provide their expertise as well as talk about all of their savings programs available to local customers.
- **"Creating a Sustainable Local Food System" April 21st - 7 pm** - Discuss various options available here in Napa Valley to become a "localvore".  
**Dave Whitmer** is the Napa County Agricultural Commissioner
- **"Global Warming and the Generation Shift" April 29th - 7 pm** - This presentation will be held in the Calistoga High School Gym. Join this remarkable young man on his mission to make a global impact on our climate. And he is only 15! This presentation is NOT to be missed! Alec is now an official speaker with The Climate Project, working with Al Gore to make an impact on global warming. He is a true inspiration to young and old to make a change today!  
**Alec Loorz** founded Kids vs Global Warming when he was 12 years old after watching Al Gore's movie, "An Inconvenient Truth." Feeling the weight of the global situation and a sense that he could make a difference, Alec felt compelled to tell other kids about the problems we are facing. His message is deeply rooted in hope, encouraging kids to speak up and let their voices be heard on this issue. [www.kids-vs-global-warming.com](http://www.kids-vs-global-warming.com)
